#### INTRODUCTION

By every measure, Beach Volleyball is one of the world's most successful and popular sports – it has larger TV viewing figures, larger followers on social media, greater (and growing) numbers of registered and recreational players, than almost any other sport, and an image which is dynamic, clean and colorful, combining, especially at the competitive levels, a visual and audible feast to satisfy every palate.

Put simply, it is **fast**, it is **exciting** and the action is **explosive**. Yet the Beach form of Volleyball comprises several crucial overlapping elements whose complimentary **interactions** render it unique amongst rally games, and create a special charm to differentiate it from other forms of the sport.

#### FIVB BEACH VOLLEYBALL IS A COMPETITIVE SPORT

Competition taps latent strengths. It exhibits the best of ability, spirit, creativity and aesthetics. The rules are structured to allow **all** of these qualities. The game's early exponents on the sands of California would still recognize it. Yet, in recent years the FIVB has made great strides in adapting the game to a modern audience.

In this regard, Beach Volleyball has retained certain distinctive and essential elements over the years. Some of these it shares with other net/ball/ racquet games: – Service – Rotation (taking turns to serve) – Attack – Defense – players able to play anywhere on court.

But the sport has moved on. Today it is more explosive, and more spectacular. It is fast and free flowing; it has athletic players doing sensational things on court in crowded venues. Additionally, Beach Volleyball is unique amongst net games in insisting that the ball is in constant flight – a flying ball – and by allowing each team a degree of internal passing before the ball must be returned to the opponents, creating a kind sharing of the ball to produce equal opportunities for scoring points. In recent years the FIVB has made a massive investment in the use of technology, with its Video Challenge System providing fairness to the efforts of the athletes, and encouraging philosophies which promote flowing play to entertain the public, both in the venue and on the screen. Competitors use this framework to contest techniques, tactics and power. The framework also allows players a freedom of expression to enthuse spectators and viewers, and create an unrivaled sporting spectacle.

And the image of Beach Volleyball is increasingly a good one as a consequence.

#### THE RULES TEXT

This text is aimed at a broad Beach Volleyball public – players, coaches, referees, spectators, commentators, and others – because an understanding of the rules allows better play and personal satisfaction – coaches can create better team structure and tactics, giving players full rein to display their skills. Additionally, an understanding of the relationship between written rules and actual actions on the court allows officials to make better decisions.

Beach Volleyball is both recreational and competitive. Recreational sport taps into the human spirit and promotes "fun" and healthy life. Competition allows people to exhibit the best of ability, creativity, freedom of expression and fighting spirit. The rules are designed and structured to allow all of these facets to flourish.

This introduction has at first focused on Beach Volleyball as a competitive sport, before setting out to identify the main qualities required for successful refereeing.

#### THE REFEREE WITHIN THIS FRAMEWORK

The essence of a good official lies in the concept of fairness and consistency:

Being positioned in the middle of both playing courts is a symbol of balance, encouraging the players to trust the referee's actions. However, the referee must be a facilitator rather than a controller, an orchestra director rather than a dictator, an efficient promoter rather than an "efficient" punisher.

By understanding the reason why a rule has been written and by being clear about its purpose within the framework of the "show", the referee becomes a big part of the overall successful production, while remaining largely in the background and intervening only when necessary. We can say that a good referee will use the rules to make the competition a fulfilling experience for all concerned.

To those who have read thus far, view the rules which follow as the current state of development of a great game, but keep in mind why these preceding few paragraphs may be of equal importance to you in your own position within the sport. So...

# Get involved! Keep the ball flying! Understand the game!

# CHAPTER 1 FACILITIES AND EQUIPMENT

		See Rules
1	PLAYING AREA	
	The playing area includes the playing court and the free zone. It shall be rectangular and symmetrical.	1.1, D1
1.1	DIMENSIONS	
1.1.1	The playing court is a rectangle measuring 16 x 8 m, surrounded by a free zone, which is a minimum of 3 m wide on all sides.	D2
	The free playing space is the space above the playing area, which is free from all obstructions. The free playing space shall measure a minimum of 7 m in height from the playing surface.	
1.1.2	For FIVB, World and Official Competitions, the free zone is a minimum of 5 m and a maximum of 6 m from the end lines/side lines. The free playing space shall measure a minimum of 12.5 m in height from the playing surface.	
1.2	PLAYING SURFACE	
1.2.1	The surface must be composed of levelled sand, as flat and uniform as possible, free of rocks, shells and anything else which can represent risks of cuts or injuries to the players.	
1.2.2	For FIVB, World and Official Competitions, the sand must be at least 40 cm deep and composed of fine loosely compacted grains.	
1.2.3	The playing surface must not present any danger of injury to the players.	
1.2.4	For FIVB, World and Official Competitions, the sand should also be sifted to an acceptable size, not too coarse, and free of stones and dangerous particles. It should not be too fine to cause dust and stick to the skin.	
1.2.5	For FIVB, World and Official Competitions, a tarp to cover the central court is recommended in case of rain.	

1.3 LINES ON THE COURT

1.3.1 All lines are 5 cm wide. The lines must be of a colour which contrasts sharply with the colour of the sand.

#### 1.3.2 Boundary lines

Two side lines and two end lines mark the playing court. There is no centre line. Both side and end lines are placed inside the dimensions of the playing court.

Court lines should be ribbons made of a resistant material, and any exposed anchors should be of a soft, flexible material.

#### 1.4 ZONES AND AREAS

There is only the playing court, service zone and the free zone surrounding the playing court.

1.4.1 The service zone is an 8 m wide area behind the end line, which extends to the edge of the free zone.

#### 1.5 WEATHER

The weather must not present any danger of injury to the players.

#### 1.6 LIGHTING

For FIVB, World and Official Competitions, played at night, the lighting on the playing area should be 1,000 to 1,500 lux measured at 1 m above the surface of the playing area.

#### 2 NET AND POSTS

D3

D2

#### 2.1 HEIGHT OF THE NET

2.1.1 Placed vertically over the middle of the court there is a net whose top is set at the height of 2.43 m for men and 2.24 m for women.

Note: The height of the net may be varied for specific age groups as follows:

Age Groups	Females	Males	
16 years and under	2.24 m	2.24 m	
14 years and under	2.12 m	2.12 m	
12 years and under	2.00 m	2.00 m	

2.1.2 Its height is measured from the centre of the playing court with a measuring rod. The net height (over the two side lines) must be exactly the same and must not exceed the official height by more than 2 cm.

#### 2.2 STRUCTURE

The net is 8.5 m long and 1 m (+/- 3 cm) wide when it is hung taut, placed vertically over the narrow axis at the middle of the playing court.

D3

It is made of 10 cm square mesh. At its top and bottom there are two 7-10 cm wide horizontal bands made of two-fold canvas, preferably in dark blue or bright colours, sewn along its full length. Each extremity of the upper band has a hole through which passes a cord fastening the upper band to the posts to keep the top of the net stretched taut.

Within the bands, there is a flexible cable in the upper one and a cord in the bottom one for fastening the net to the posts and keeping its top and bottom taut. It is permissible to have advertising on the horizontal bands of the net.

For FIVB, World and Official Competitions, an 8.0 m net with smaller meshes and brandings displayed between the ends of the net and the posts may be used, provided that the visibility of the athletes and officials will be preserved. Publicity may be printed on the above items as per FIVB regulations.

#### 2.3 SIDE BANDS

Two coloured bands, 5 cm wide (same width as the court lines) and 1 m long, are fastened vertically to the net and placed directly above each side line. They are considered as part of the net.

14.1.1, D3

Advertising is permitted on the side bands.

#### 2.4 ANTENNAE

An antenna is a flexible rod, 1.80 m long and 10 mm in diameter, made of fibreglass or similar material.

An antenna is fastened at the outer edge of each side band. The antennae are placed on opposite sides of the net.

The top 80 cm of each antenna extends above the net and is marked with 10 cm stripes of contrasting colour, preferably red and white.

The antennae are considered as part of the net and laterally delimit the crossing space.

2.5 D2. D3 POSTS 251 The posts supporting the net are placed at a distance of 0.70-1.00 m outside each side line. They are 2.55 m high and preferably adjustable. For FIVB, World and Official Competitions, the posts supporting the net are placed at a distance of 1 m outside the side lines. 2.5.2 The posts are rounded and smooth, fixed to the ground without wires. There shall be no dangerous or obstructing devices. Posts must be padded. ADDITIONAL EQUIPMENT All additional equipment is determined by FIVB regulations. **BALLS** 3.2 STANDARDS The ball shall be spherical, made of a flexible material (leather, synthetic leather, or similar) which does not absorb moisture, i.e. more suitable to outdoor conditions since matches can be played when it is raining. The ball has a bladder inside made of rubber or a similar material. Approval of synthetic leather material is determined by FIVB regulations. Colour: light uniform colour or a combination of colours. Circumference: 66 to 68 cm Weight: 260 to 280 g. Inside pressure: 0.175 to 0.225 kg/cm<sup>2</sup> (171 to 221 mbar or hPa). 3.2 UNIFORMITY OF BALLS All balls used in a match must have the same standards regarding circumference, weight, pressure, type, colour, etc. FIVB, World and Official Competitions must be played with FIVB 3.1, 28.2.7 approved balls, unless by agreement of FIVB. FOUR-BALL SYSTEM For FIVB, World and Official Competitions, four balls shall be

used. In this case, six ball retrievers are stationed one at each

corner of the free zone and one behind each referee.

The ball may, however, be retrieved from beyond its own free zone and over the scoring table in its complete extension. TEAM HITS A hit is any contact with the ball by a player in play. Each team is entitled to a maximum of three hits for returning the ball over the net. If more are used, the team commits the fault of "FOUR HITS". These team hits include not only intentional hits by the player, but also unintentional contacts with the ball CONSECUTIVE CONTACTS 9.1.1 A player may not hit the ball two times consecutively (exceptions, see 9.2.2.1.14.2. Rules: 9.2.2.2, 9.2.2.3, 14.2 and 14.4.2). 14.4.2, D9 (17) 912 SIMULTANFOUS CONTACTS Two players may touch the ball at the same moment. 9.1.2.1 When two teammates touch the ball simultaneously, it is counted as 14.2 two hits (with the exception of blocking). If they reach for the ball but only one of them touches it, one hit is counted If players collide, no fault is committed. 9.1.2.2 When two opponents touch the ball simultaneously over the net and the ball remains in play, the team receiving the ball is entitled to another three hits. If such a ball goes "out", it is the fault of the team on the opposite side. 9.1.2.3 If simultaneous hits by two opponents over the net lead to an extended 9.1.2.2 contact with the ball, play continues. 9.1.2.4 If the ball hits the antenna after simultaneous hits by two opponents over the net, the rally should be replayed. 913 ASSISTED HIT Within the playing area, a player is not permitted to take support from a teammate or any structure/object in order to hit the ball. However, a player who is about to commit a fault (touch the net or interfere with an opponent, etc.) may be stopped or held back by a

- 11.3.2 Players may touch the post, ropes, or any other object outside the antennae, including the net itself, provided that it does not interfere with the play (except Rule 9.1.3).
- 11.3.3 When the ball is driven into the net, causing it to touch an opponent, no fault is committed

#### PLAYER'S FAULTS AT THE NET

- 11.4.1 A player touches the ball or an opponent in the opponent's space before D9 (20) the opponent's attack hit.
- 11.4.2 A player interferes with the opponent's play while penetrating into the opponent's space under the net.
- 11.4.3 A player interferes with play by (amongst others):
  - touching the net between the antennae or the antenna itself during his/her action of playing the ball,
  - using the net between the antennae as a support or stabilizing aid
  - creating an unfair advantage over the opponent by touching the net
  - making actions which hinder an opponent's legitimate attempt to play the ball,
  - catching/holding on to the net

Any player close to the ball as it is played, and who is him/herself trying to play it, is considered in the action of playing the ball, even if no contact is made with it.

However, touching the net outside the antenna is not to be considered as a fault (except for Rule 9.1.3.)

#### 12 **SERVICE**

The service is the act of putting the ball into play by the correct serving player placed in the service zone.

#### FIRST SERVICE IN A SET

The first service of a set is executed by the team determined by the toss.

#### SERVICE ORDER

- The players must follow the service order recorded on the score sheet. 12.2.1
- After the first service in a set, the player to serve is determined as follows: 12.2.2
- 12.2.2.1 when the serving team wins the rally, the player who served before, serves again.
- 12.2.2.2 when the receiving team wins the rally, it gains the right to serve and the player who did not serve last time will serve.

12.3	AUTHORIZATION OF THE SERVICE	
	The 1st referee authorizes the service, after having checked that both teams are ready to play and that the server is in possession of the ball.	D9 (1)
12.4	EXECUTION OF THE SERVICE	
12.4.1	The ball shall be hit with one hand or any part of the arm after being tossed or released from the hand(s).	D9 (10)
12.4.2	Only one toss or release of the ball is allowed. Moving the ball in the hands is permitted. $ \\$	
12.4.3	The server may move freely within the service zone. At the moment of the service hit or take-off for a jump service, the server must not touch the court (the end line included) or the ground outside the service zone. His/her foot may not go under the end line.	1.4.2, D9 (22), D10 (4)
	After the hit, he/she may step or land outside the service zone, or inside the court. If the line moves because of the sand pushed by the server, it is not considered a fault.	
12.4.4	The server must hit the ball within 5 seconds after the $1^{\rm st}$ referee whistles for service.	D9 (11)
12.4.5	A service executed before the referee's whistle is cancelled and repeated.	D9 (23)
12.4.6	If the ball, after having been tossed or released by the server, lands without being touched or caught by the server, it is considered as a service.	
12.4.7	No further service attempt will be permitted.	
12.5	SCREENING	D9 (12)
12.5.1	A player of the serving team must not prevent the opponent, through individual screening, from seeing the service hit AND the flight path of the ball.	D5
12.5.2	A player of the serving team makes a screen by waving arms, jumping or moving sideways during the execution of the service, in order that both the service hit and the flight path of the ball are hidden until the ball reaches the vertical plane of the net. Should either be visible to the receiving team this is not a screen.	D5
12.6	FAULTS MADE DURING THE SERVICE	
12.6.1	Serving faults	
	The following faults lead to a change of service. The server:	
12.6.1.1	I violates the service order,	12.2, D9 (13)
	2 does not execute the service properly.	12.4
12.0.1.2	a does not excesse the service property.	12.7

12.6.2 Faults after the service hit  After the ball has been correctly hit, the service becomes a fault if the ball:

12.6.2.3 passes over a screen D5	
13 ATTACK HIT	
13.1 CHARACTERISTICS OF THE ATTACK HIT	
13.1.1 All actions which direct the ball towards the opponent, with the exception of service and block, are considered as attack hits.	
13.1.2 An attack-hit is completed the moment the ball completely crosses the vertical plane of the net or is touched by an opponent.	
13.1.3 Any player may carry out an attack-hit at any height, provided that his/ her contact with the ball has been made within the player's own playing space (except Rule 13.2.4, 13.2.5 below).	4, 13.2.5
13.2 FAULTS OF THE ATTACK HIT	
13.2.1 A player hits the ball within the playing space of the opposing team.	2, D9 (20)
13.2.2 A player hits the ball "out".	09 (15)
13.2.3 A player completes an attack-hit using an open-handed finger action or if using finger tips that are not rigid and together.	:1)
13.2.4 A player completes an attack hit on the opponent's service, when the ball is entirely higher than the top of the net.	:1)
13.2.5 A player completes an attack-hit using an overhand pass which has a trajectory not perpendicular to the line of the shoulders. The exception is when the player is attempting to set to his or her teammate.	.1)
14 BLOCK	
14.1 BLOCKING	
14.1.1 Blocking is the action of players close to the net to intercept the ball	
coming from the opponent by reaching higher than the top of the net, regardless of the height of the ball contact. At the moment of the contact with the ball, a part of the body must be higher than the top of the net.	

#### PART 2 - SECTION 1: GAME

14.1.2	Block Attempt	
	A block attempt is the action of blocking without touching the ball.	
14.1.3	Completed Block	
	A block is completed whenever the ball is touched by a blocker.	D6
14.1.4	Collective Block	
	A collective block is executed by two players close to each other, and is completed when one of them touches the ball.	
14.2	BLOCK CONTACT	
	Consecutive (quick and continuous) contacts may occur by one or more blockers provided that the contacts are made during one action. These are counted as only one team hit. These contacts may occur with any part of the body.	9.1.1, 9.2.3
14.3	BLOCKING WITHIN THE OPPONENT'S SPACE	
	In blocking, the player may place his/her hands and arms beyond the net, provided that this action does not interfere with the opponent's play. Thus, it is not permitted to touch the ball beyond the net before an opponent has executed an attack hit.	13.1.1
14.4	BLOCK AND TEAM HITS	
14.4.1	A blocking contact is counted as a team hit. The blocking team will have only two more hits after a blocking contact.	
14.4.2	The first hit after the block may be executed by any player, including the one who has touched the ball during the block.

## CHAPTER 5 INTERRUPTIONS, DELAYS AND INTERVALS

See Rules

#### 15 INTERRUPTIONS

An interruption is the time between one completed rally and the  $1^{\rm st}$  referee's whistle for the next service.

The only **regular game** interruptions are TIME-OUTS.

D9 (4)

#### 15.1 NUMBER OF REGULAR GAME INTERRUPTIONS

Each team may request a maximum of one time-out per set.

#### 15.2 SEQUENCE OF REGULAR GAME INTERRUPTIONS

- 15.2.1 Request for time-out by both teams may follow one another, within the same interruption.
- 15.2.2 There are no substitutions.
- 15.2.3 It is not permited to request any regular game interruption after having had a request rejected and sanctioned by a delay warning during the same interruption (i.e. before the end of next completed rally).

#### 15.3 REOUEST FOR REGULAR GAME INTERRUPTIONS

Regular game interruptions may be requested only by the captain.

#### 15.4 TIME-OUTS AND TECHNICAL TIME-OUTS

- 15.4.1 Time-out requests must be made by showing the corresponding hand signal, when the ball is out of play and before the whistle for service. All requested time-outs last for 30 seconds
- 15.4.2 For FIVB, World and Official Competitions, in sets 1 and 2, one additional 30-second "Technical Time-Out" is applied automatically when the sum of the points scored by the teams equals 21 points. The length of the Time-Outs and Technical Time-Outs could be adjusted if the FIVB approves such request based on a request from the Organizer.

#### PART 2 - SECTION 1: GAME

15.4	4.3	In the deciding (3rd) set, there are no "Technical Time-Outs"; only one time-out of 30 seconds duration may be requested by each team.	
15.4	4.4	During all regular interruptions (including Technical Time Outs) and set intervals, players must go to the designated players' area.	15.5, 16.1
15.	5	IMPROPER REQUESTS	
		Among others, it is improper to request a time-out:	
15.	5.1	during a rally or at the moment of, or after the whistle to serve,	6.1.3
15.	5.2	by a non-authorised team member,	
15.	5.3	after having exhausted the authorized time-outs.	15.1
15.	5.4	Any further improper request in the same match by the same team constitutes a delay.	D9 (25)
16		GAME DELAYS	
16.	1	TYPES OF DELAYS	
10.		An improper action of a team that defers resumption of the game is a delay and includes, among others:	
16.	1.1	prolonging time-outs, after having been instructed to resume the game;	
16.	1.2	repeating an improper request;	15.5
16.	1.3	delaying the game (12 seconds shall be the maximum time from the end of a rally to the whistle for service under normal playing conditions);	
16.	1.4	delaying the game by a team member.	
16.7	2	DELAY SANCTIONS	
16.2	2.1	"Delay warning" and "delay penalty" are team sanctions.	
16.2	2.1.1	Delay sanctions remain in force for the entire match.	
16.2	2.1.2	All delay sanctions are recorded on the score sheet.	
16.2	2.2	The first delay in the match by a team member is sanctioned with a "DELAY WARNING".	D9 (25), D7b
16.2	2.3	The second and subsequent delays of any type by any member of the same team in the same match constitute a fault and are sanctioned with a "DELAY PENALTY": a point and service to the opponent.	D9 (25), D7b
16.2	2.4	Delay sanctions imposed before or between sets are applied in the following set.	

#### **EXCEPTIONAL GAME INTERRUPTIONS**

#### INJURY/ ILL NESS

17.1.1 Should a serious accident occur while the ball is in play, the referee must stop the game immediately and permit medical assistance to enter the court.

The rally is then replayed.

17.1.2 An injured/ill player is given a maximum of 5 minutes recovery time. The referee must authorize the properly accredited medical staff to enter the playing court to attend the player. Only the 1st referee may authorize a player to leave the playing area without penalty. When the treatment has been completed or if no treatment can be provided, play must resume. The 1st referee will whistle and request the player to continue. At this time, only the player can judge whether he/ she is fit to play.

> If the player does not recover or return to the playing area at the 6.4.3.7.3.1 conclusion of the recovery time, his/her team is declared incomplete.

In extreme cases, the doctor of the competition can oppose the return of an injured player.

Note: the recovery time will begin when the properly accredited medical staff member(s) of the competition arrives at the playing court to attend to the player. In the event that no accredited medical staff is available or in cases where the player chooses to be treated by his/her own medical personnel, the time will begin from the moment the recovery time was authorized by the referee.

#### EXTERNAL INTERFERENCE

If there is any external interference during the game, the play has to be stopped and the rally is replayed.

#### PROLONGED INTERRUPTIONS

- 17.3.1 If unforeseen circumstances interrupt the match, the 1st referee, the organizer and the Control Committee, if there is one, shall decide the measures to be taken to re-establish normal conditions.
- 17.3.2 Should one or several interruptions occur not exceeding 4 hours in total, the match is resumed with the score acquired, regardless of whether it continues on the same playing court or another playing court.
- Should one or several interruptions occur, exceeding 4 hours in total, the whole match shall be replayed.

#### 18 **INTERVALS AND CHANGE OF COURTS/SWITCHES**

#### 18.1

18.1.1 An interval is the time between sets. All intervals last one minute.

> During this period of time, the change of courts (if requested) and D9 (3) service order of the teams on the score sheet are made.

During the interval before a deciding set, the referees carry out a toss in accordance with Rule 7.1.

#### 18.2 COURT SWITCHES

18.2.1 The teams switch after every 7 points (Set 1 and 2) and 5 points (Set D9 (3) 3) played.

18.2.2 During court switches the teams must change immediately without delay.

> If the court switch is not made at the proper time, it will take place as soon as the error is noticed.

The score at the time that the court switch is made remains the same.

# CHAPTER 6 PARTICIPANTS' CONDUCT

		See Rules
40	PEOLIPEMENTS OF CONDUCT	
19	REQUIREMENTS OF CONDUCT	
19.1	SPORTSMANLIKE CONDUCT	
19.1.1	Participants must know the "Official Beach Volleyball Rules" and abide by them.	
19.1.2	Participants must accept referees' decisions with sportsmanlike conduct, without disputing them.	
	In case of doubt, clarification may be requested only through the captain.	5.1.2.1
19.1.3	Participants must refrain from actions or attitudes aimed at influencing the decisions of the referees or covering up faults committed by their team.	
19.2	FAIR PLAY	
19.2.1	Participants must behave respectfully and courteously in the spirit of FAIR PLAY, not only towards the referees, but also towards other officials, the opponent, teammates and spectators.	
19.2.2	Communication between team members during the match is permitted.	5.2.3.4
20	MISCONDUCT AND ITS SANCTIONS	
20.1	MINOR MISCONDUCT	
	Minor misconduct offences are not subject to sanctions. It is the 1 <sup>st</sup> referee's duty to prevent the teams from approaching the sanctioning level.	5.1.2, 21.3
	This is done in two stages:	
	Stage 1: by issuing a verbal warning through the captain;	
	Stage 2: by use of a YELLOW CARD to a team member. This formal warning is not in itself a sanction but a symbol that the team member (and by extension the team) has reached the sanctioning level for the match. It is recorded in the score sheet but has no immediate consequences.	D9 (5)

20.2	MISCONDUCT LEADING TO SANCTIONS	
20.2		
	Incorrect conduct by a team member towards officials, opponents, teammates or spectators is classified in three categories according to the seriousness of the offence.	4.1.1
20.2.1	Rude conduct: acting contrary to good manners or moral principles,	
20.2.2	Offensive conduct: defamatory or insulting words or gestures including any action expressing contempt.	
20.2.3	Aggression: actual physical attack or aggressive or threatening behaviour.	
20.3	SANCTION SCALE	
	According to the judgment of the $1^{\rm st}$ referee and depending on the seriousness of the offence, the sanctions to be applied and recorded on the score sheet are: <b>Penalty, Expulsion or Disqualification.</b>	D7a
20.3.1	Penalty	
	For rude conduct or a single repetition of rude conduct in the same set by the same player. On each of the first two occasions, the team is sanctioned with a point and service to the opponents. A third rude conduct by a player in the same set is sanctioned by expulsion. Rude conduct sanctions may, however, be given to the same player in subsequent sets.	D9 (6)
20.3.2	Expulsion	
	The first offensive conduct is sanctioned by expulsion. The player who is sanctioned with expulsion must leave the playing area and his/her team is declared incomplete for the set.	6.4.3, 7.3.1, D9 (7)
20.3.3	Disqualification

#### PROTOCOL

The series of events before the start of the match, including the toss, the warming-up session, presentation of the teams and referees described in the Specific Competition Handbook.

#### COMPETITION/ CONTROL AREA

The Competition/ Control Area is a corridor around the playing court and free zone, which includes all spaces up to the outer barriers or delimitation fence. See diagram/fig 1a.

#### 70NFS

These are sections within the playing area (i.e. playing court and free zone) as defined for a specific purpose (or with special restrictions) within the rule text. These include: Service Zone & Free Zone.

#### LOWER SPACE

This is the space defined as its upper part by the bottom of the net and the cord joining it to the posts, at the sides by the posts, and the bottom by the playing surface.

#### CROSSING SPACE

The crossing space is defined by:

- The horizontal band at the top of the net
- The antennae and their extension
- The ceiling

The ball must cross to the opponent's COURT through the crossing space.

#### EXTERNAL SPACE

The external space is in the vertical plane of the net outside of the crossing and lower spaces.

#### UNLESS BY AGREEMENT OF FIVE

This statement recognizes that while there are regulations on the standards and specification of equipment and facilities, there are occasions when special arrangements can be made by FIVB in order to promote the game of Beach Volleyball or to test new conditions.

#### **FIVB STANDARDS**

The technical specifications or limits as defined by FIVB to the manufacturers of equipment.

#### **FAULT**

- a) A playing action contrary to the rules.

- Playing the ball rebounding from opponent's block

# **RALLY POINT**

This is the system of scoring a point whenever a rally is won.

#### TECHNICAL TIME-OUT
